## Project Title: Yves Saint Laurent

I would like to build a page based on the life and impact of fashion designer Yves Saint Laurent. I would like to be somewhat of a timeline with a focus on his innovations and work during his prime as a designer. I am thinking that there could be multiple pages, each with a focus on a particular era or innovation that he pushed forward along with examples.

- Home Page - shows YSL with maybe a short background of who he is
- Multiple Pages - shows his life in a timeline like fashion with pages dedicated to certain pieces/collections that were ahead of his time
- Sources
